

LaCinema Classic

DESIGN BY NEIL POULTON

Multimedia Hard Disk

**Your Movies, Photos,
and Music on Your TV**

Connect Your PC and TV

Play your movie library on your HDTV in two easy steps: connect the LaCinema Classic to your computer to easily store your movies, then connect it to your TV for instant playback. No configuration is required. You'll save time and avoid having to burn CDs/DVDs to hold all of your media. You'll also be able to store and enjoy your DivX videos on any TV.

Made for HDTV

Improve the look of your movies and photos on your HDTV with 1080p upscaling. With no compromise on quality, the LaCinema Classic goes one step further by adding true upscaling capabilities through certified HDMI output. This multimedia hard disk supports a wide variety of video, photo, and music formats including MPEG-4 (DivX, XviD), JPEG, and MP3. It also comes with SPDIF coaxial audio output for optimized audio quality.

Easy to Use

With up to 1TB (1000GB) of storage available, you can store your entire digital media library in one safe place. On a 1TB LaCinema Classic, you can store approximately 1000 movies or 250,000 songs or 1,000,000 photos. This user-friendly drive, designed by Neil Poulton, adds sophisticated style to your home and it's fanless for silent operation. An easy-to-use on-screen menu and remote control have been designed to improve your experience. A front USB port allows you to quickly connect a USB storage key to instantly watch movies on your TV.

Complete Mobility

The LaCinema Classic is great for taking with you when visiting friends or family, or when you're on vacation. Now you can share your movies, music, and slideshows with others wherever you are. This lightweight drive is surprisingly compact given its high capacity and can easily be moved around. Since it comes with widely-used Hi-Speed USB 2.0, you can plug it into just about any PC or Mac for an easy, quick storage solution.

- Play your movies, music, and photos on any TV
- Connect to HDTV via HDMI
- Compact: take it with you on vacation or when visiting friends
- Store your entire digital movie library

Features
